**Martin  
Powell-Davies**

Break with past failures  
**Time to start winning...**

**In touch with  
teachers...**

The NUT leadership has let teachers down for too long.

Martin offers a *real* change, the candidate:

- From outside the old Union establishment
- Still teaching in the classroom
- Accepting only a teacher's salary for being a teachers' General Secretary

*"I am the only candidate who has spent the last decade combining classroom teaching with Union activities. I know first-hand the relentless pressure facing teachers. I pledge to be a General Secretary that you can rely on to match words with action so that, collectively, we can stand up for ourselves and for children's education"*

- An end to excessive workload
- Defend the right to retire on a full pension at 60
- A serious campaign to end SATs and league tables
- Action to oppose performance pay and the pay freeze
- A qualified teacher for every child
